

Simpkins' Prolific Cotton Seed

THE EARLIEST MATURING COTTON
SEED IN THE WORLD.

Only 90 days from planting to boll.

Without an ounce more fertilizer or an extra hour's work, it will actually increase your yield from 15 to 35 per cent. Has a good stalk—strong, sturdy, healthy—and yields 40 per cent lint. Year after year Simpkins' Prolific has won First Premiums at the North Carolina State Fair for best single stalk, best cotton in seed, best lint cotton and best acre.

PRICES:

In carload lots.....\$1.00 per bu.

Less than carload lots.....\$1.15 per bu.
